WHO WE ARE

We are a quality-driven construction company that believes that the relationship we build with each customer is as important as the craftsmanship we build into their project.

Grady Moseley, President Overall project coordinator who brings his visionary gifts to every project. Grady is:

- A Licensed General Contractor
- NC Builder Institute Accredited Master Builder Program
- NC State Building Code Enforcement Training, Estimating and Bidding
- Certified to do EIFS (Synthetic Stucco) Inspection and Moisture Analysis

Kim Moseley, Vice President and Chief Financial Officer A working partner who shares in Grady's vision to provide quality craftsmanship at a reasonable price.

Steve Pressley, Production Manager A master of all trades, Steve has owned a landscaping company and he is a licensed general contractor. His responsibilities include overall scheduling and quality control for each project. He is known for going above and beyond to ensure the happiness of our customers.

Kevin Nash and Christopher Wells, Job Site Superintendents Chris is a general contractor and together they bring over 15 years of building experience to our team. Both Kevin and Chris are dedicated to ensuring that your project is done right.

Lindsay Browning, Operations Administrator A seasoned professional with over 30 years of business management experience, Lindsay helps keep the Segue Builders business 'engine' running smoothly.

WHAT YOU CAN EXPECT

A builder who crafts homes and remodeling projects on a foundation of:

Relationships

We place a premium on the relationship we have with each customer. Not only are we crafts people working with wood and stone, but crafts people working on honest and trustworthy relationships.

Craftsmanship

Craftsmanship is a given. We build the old-fashioned way. Our projects are built to last and look good over time. This is true whether we are doing historic renovation or new construction.

Scheduling

We begin and complete projects according to a written schedule. We use a commercial-grade scheduling software to manage our projects and to keep customers abreast of each phase of construction.

Budget

We begin and finish projects on budget. No one likes to spend more money than they plan on spending. The price we give you is the price you pay unless you make changes or we encounter unforeseen conditions.
